

Enhanced SME CashFlow AI Prompt

NEXORA CASHFLOW AI

PROJECT GOAL

Build a production-ready SaaS platform that helps SMEs forecast revenue, expenses and cash flow.

MISSION

Help Nigerian SMEs make better financial decisions through AI-powered forecasting.

IMPACT SECTION

Over 90% of Nigerian businesses are SMEs and many fail due to poor financial planning. This platform uses predictive analytics and AI to improve business decision-making.

TECH STACK

Next.js 15, TypeScript, TailwindCSS, Shadcn UI, Supabase, PostgreSQL, Prisma ORM, OpenAI API, Recharts and Vercel.

DELIVERABLES

Complete codebase, API documentation, database schema, README, deployment guide, sample data and screenshots.
